

RE: docket 02-98  
Proposed allocation of 60M for Amateur Radio use:  
Date: June 19, 2002

Dear Sir(s),

I am strongly in favor of the new allocation for Amateur radio use and think it will be a great asset to everyone for experimentation; and to further the state of the art of radio communication by Amateur Radio Operators as a resource among other things.

I am strongly opposed to assigning a bandplan to the new frequency allocation. To do so will inhibit experimentation and limit it's usefulness. In order to take full advantage of this allocation we should be able to operate any mode anywhere in the band.

Please be advised that I support open use by General, Advanced and Extra license classes.

Very Truly Yours,

Joseph Cro
